form of a bond to be executed by private de-

fectives.

George Biddle and Sarah Gilman, both col-

ored, were fined \$5 each yesterday by Judge

Smith for violating the law against intermar-

improvement of D street, between Indiana

estimate for street improvements.

The commissioners favor the route of the

Annapolis and Potomac railroad. They

object, however, to the termination of the

route at Sixth street near Pennsylvania

avenue northwest.

Wills Filed for Probate.

The last will and testament of John W. East-

on, who died in the city of Baltimore, was

filed for probate in the office of the

register of wills. All of the property, both

real and personal, is left to his daughter,

Elizabeth E. Easton, for life, and at her death

to be divided among his sons, John W. Easton,

George S. Easton, and Charles H. Easton, and

his two daughters, Mrs. John W. Easton, and

Mrs. George S. Easton. The four sons are

to receive each one-fifth of the estate, and

the daughters are to receive each one-fifth

of the residue. The will was filed for

probate in the office of the register of wills

HUNTING FOR A BUILDING.

In Which to Locate the City Post-office.

Although the President on Tuesday ap-

proved the bill providing for the leasing of

temporary quarters for the accommodation

of the city postoffice, another large obstacle

remains in the way, and that is to find a

suitable building to move into that can be

leased for the purpose. Postmaster Ross

has made a thorough canvass of the city for

a suitable building, but his search has

been in vain. The old medical museum on

Fourth street is still occupied by a large

force of clerks from the surgeon-general's

office, and is out of the question, while the

E street building is too small for the

purpose. It is suggested by Mr. Ross that

perhaps some enterprising citizen will erect

a suitable building for that purpose, but

the name of the e. c. who will furnish such

a needed building is as yet unknown.

As has been frequently stated in the

Republican, the condition of things in the

present building is terrible and the present

facility is, besides not being large enough for

the purpose, unhealthy, and unsafe. Large

portions of the ceiling have fallen lately,

and the upper floors have sagged down con-

siderably under the weight placed upon

them. Unless some precautionary measures

are taken soon an accident is likely to hap-

pen.

ANATOMY BOTTLES are induced by all the

leading physicians and chemists, for their

study and dissection. Beware of cheap

bottles, and ask your grocer and druggist for

the genuine article, prepared by Dr. J. G. B.

Singer & Sons.

Grand Catholic Procession.

In the Catholic church on Monday, Thurs-

day the sacred rites are blessed, the bells

and organs ring in the morning, and at the

conclusion of the mass there is a grand pro-

cession. At these ceremonies at the Baltimore

Cathedral, the Cardinal Archbishop will officiate.

Washingtonians can conveniently attend by

availing themselves of the \$1 round-trip rate

provided by the Baltimore and Potomac rail-

road. Fifteen trains each way.

Treasurer Hyatt's New Seal.

A new seal for use on United States notes

and certificates, and similar in design to the

one used on the old \$30 note, with the addition

of a small lace border with many points in

geometric pattern, has been adopted by Treas-

urer Hyatt. It was formerly used in form

of a separate seal, and was formerly used in

gold and silver certificates, varying in size

and design according to the denomination and

character of the note. The new seal will be

used exclusively on all paper in-

surs. It is expected that this change will

prove an additional safeguard against coun-

terfeiting.
